

FERNANDO
SOTO GALLEGOS

HI!

I'm Fernando Soto Gallegos and I want to tell you a little about myself and my career as a Karting driver to kindly request your support as a sponsor to achieve my dream.

Being both American and Mexican, I started racing at 9 years old, in Houston, TX, at K1 Speed Houston.

In the 2017 season, of the 7 races in which I participated, I won 6 podiums, first place in 5 races and a third place.

In October of 2017, I attended the USA Grand Prix of Formula 1 in Austin, TX. I achieved the best laps in the simulators on the 3 days of the event, racing against hundreds of participants of all ages and experience level.

My family, seeing my potential, made the decision to take me to Spain and participate in a summer camp at the Fernando Alonso's Karting Academy. My performance was outstanding considering my first time on outdoor karts racing against more experienced drivers. I achieved "Pole Position" for the Race and got a 3rd. place in the final race. I was recognized in the awards ceremony as the best "Overtaker".

We then moved to Spain in 2018 to train at the Karting School.

This year I participated in the Asturias Championship against experienced competitors, of which 3 were competing at the Spanish Championship. I won the 4th place in the 2018 season.

Because of my performance on the first 5 races of the Asturias Championship, I was invited to participate in the last race of the Spanish Championship. In the two races I recovered 15 positions and was able to finish on 7th place against the top drivers participating in this competitive Championship!

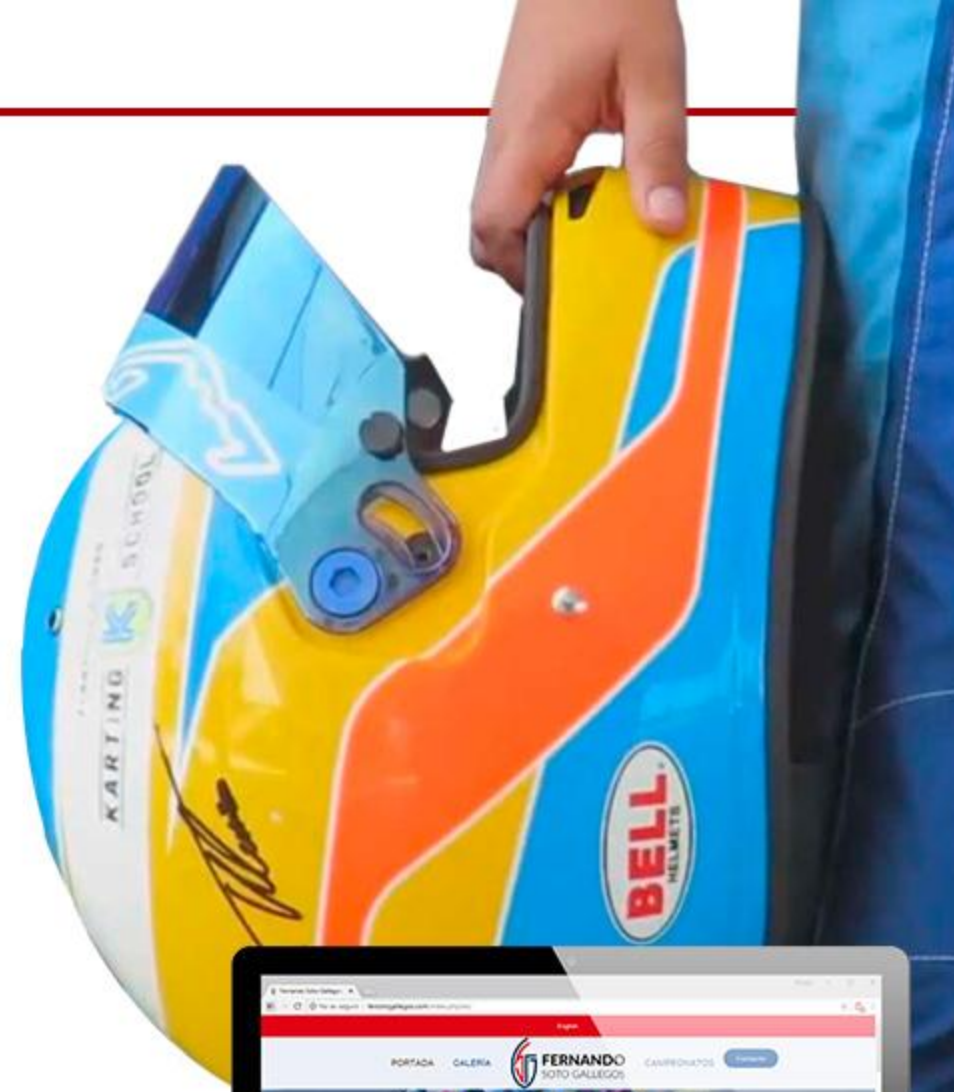

I was congratulated by the coaches for my performance, since in their experience it takes about 2 years to achieve what I did on the first race.

We need your support and sponsorship for next year's Spain Karting Championship, as we are sure that with hard work and dedication, I have a great future as we have been told by coaches in this Motorsport.

On our part we can offer the Sponsors to use logos in T-Shirts, Mono (suit), Helmet and Kart during the races. Also I am available for interviews. We will promote your brand in videos that we will upload to Internet (Website, YouTube, Instagram, Facebook, etc.). We also offer recognition on my website and social networks, as well as distribution of promotional items from the sponsor if available. And, of course, the pride of having trusted and supported a star since its inception.

The Spanish Championship has a cost of US\$8,000 for each of the 5 races. You can sponsor one or more races. All contributions help towards our goal. The racing team that takes the drivers and provides all the coaching/advice/support and equipment for the races is DPK Racing.

Please contact us! We would love to team up with you and promote your brand!
